An opportunity:

If you have a research idea, bring it along to be workshopped. If you don't know where to start, come along and learn some research skills!

You will leave the *Think Tank* series with an initial framework and a research protocol relevant to your role.

Have the opportunity to be connected with an academic as your project is developed ... you may even consider applying for our Small Grants in 2024/25!

You are welcome to attend one-off or on an ongoing basis, however it is worth noting we will be building each month on our research skills.

Unable to attend, but interested in building your research skills? Check out our **BUILDING RESEARCH CAPACITY ONLINE WORKBOOK**. To access set up a free account on The Peregrine Portal, our online learning platform.
